

Packaging

At Panaprint, we pay attention to every detail of your order, right down to the packaging.

Counting scales weigh the amount of print pieces in each box, so you can be sure each box we send you contains the exact same amount. We use standard 200 pound test corrugated boxes which are labeled with both content and count for your convenience.

Panaprint packaging possibilities include:

- Shrink-wrapping
- Carton packing
- Skid packing

Custom packaging is available too, but may delay shipment of your product. Make sure to let us know you would like custom packaging when you first place the order to allow time for stocking.

Need your order fast? Ask us about our fast turnaround times and rush service.

Need to make more than one delivery over time? Ask us about our fulfillment services.

Ask your customer service representative for more information about packaging options.
