

# Brochure Racks & Displays

The worst thing that can happen to your printed piece is for it to never be picked up and appreciated.

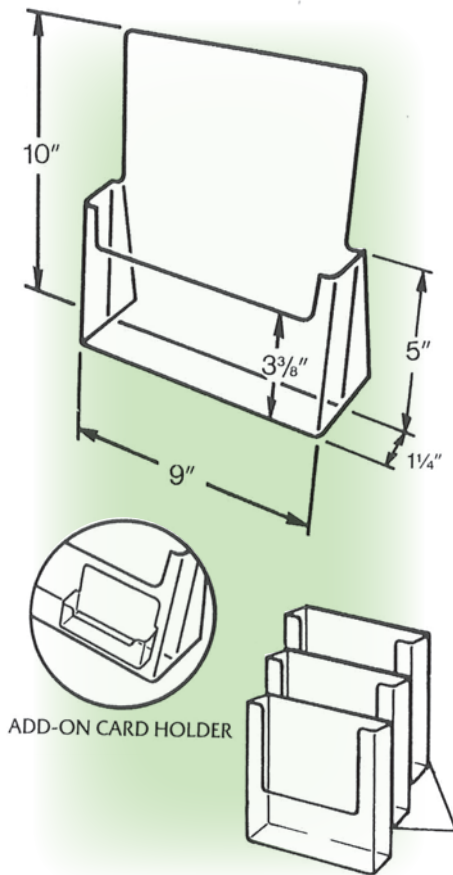

When you are planning your print project, keep in mind what you want to happen to it once it has been printed. Racks and displays make the difference in your piece being picked up and remembered or just being left behind.

Don't let your investment go to waste!

Plan room in your print budget to include brochure racks, card holders, and magazine displays. Although Panaprint does not carry these items, we highly recommend their use to give your print project increased visibility.
