Make your message stick with Panaprint's tip-on 3M Post-It Notes.

Who could have predicted the impact of something as simple as a note pad with a little strip of adhesive? Such a simple idea, and yet, in some ways, it has revolutionized the way we communicate.

Catch the attention of your audience by using 3M Post-It Notes as a tip-on to another printed piece. This is a powerful way to keep information about your company, product, or service in front of your customers.

Consider affixing these notes on your mailing to generate interest in your mail package with something different, while also providing customers with a memorable reminder, website, phone number, address, offer, coupon, or note that they can remove and save.

3M Post-It Notes can be personalized, and a wide range of fonts are available for use. In most cases, some lead time is necessary for the customized sticky note stock to be special ordered. Your custom quote is based on quantity of notes and colors used.

**Consider placing a 3M Post-It Note on your next mail piece.**

Usually, no additional postage is necessary, and the notes have tested very high for success in sticking to packages through the mail stream.
