You can browse through a complete visual collection of these layouts at our website: www.panaprint.com. Just look under **Services** and then select **Stock Layouts**. You'll discover literally hundreds of beautiful designs ranging over dozens of different themes or topics.

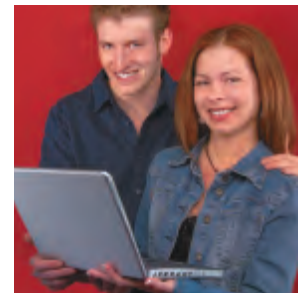

If you find a layout you like, write down the template number and inform your Customer Service Representative. Our design team can then access that layout and tailor it to fit your specific design needs. For example, we can give the layout a more personal touch by replacing the stock photos with your own images, adding your text, your logo, etc.

Using Panaprint's stock layouts has many benefits:

- It reduces turn-around time.
- If changes to the design are minimal, it lowers design costs.
- It provides you with a sharp, professional printed piece that also has your own special touch.

To browse our extensive collection of stock layouts via the internet, point your browser to www.panaprint.com.

The link to **Stock Layouts** is located under the **Services** drop-down menu.

Take advantage of Panaprint's stock layouts for your next print project!
